

Iskhak Suranov

Mobile Developer

📍 Warsaw, Poland ✉ iskhaksuranov@gmail.com in LinkedIn 🐙 Github 🏆 HackerRank 🏆 LeetCode

🧠 SKILLS

Dart, Flutter, BLoC

Mobile App Development, SDK

Google Map, Mapbox

Stripe, Paypal

Firebase, Git, REST API, GraphQL, SQL, JSON

Android, iOS

Java, Kotlin

Windows, Linux

📁 EXPERIENCE

Mobile Developer, AtlasSoft

Apr 2022 – Sep 2022
Almaty, Kazakhstan

- Designed and implemented Flutter and Dart code using BLoC patterns for iOS and Android.
- Integrated with Stripe and other payments services.
- Used location management services such as Google Map and Mapbox.
- Optimized, reduced memory usage by about 50mb and increased performance by 30%.
- Troubleshooted and resolved multithreading issues.
- Tested apps on multiple devices, including smartphones and tablet.

Volunteer, Sky Bridges

Jan 2022 – Apr 2022
Warsaw, Poland

- Built a team of ~20 students with no IT background and provided them with a roadmap for success in the IT world.
- Improved soft skills by teaching others and holding weekly meetings

Software Engineer Intern, Tech For Good Inc

Jun 2021 – Sep 2021
Boston, MA, United States

- Developed a cross-platform mobile app with the most recent Dart, Flutter, and Firebase technologies.
- Collaborated with another team to create a fully functional app.
- Demonstrated solutions through the creation of documentation, flowcharts, and diagrams.
- Wrote unit tests and clearly commented code.

🎓 EDUCATION

Vistula University, Bachelor of Computer Science (GPA: 3.8)

Oct 2020 – present
Warsaw, Poland

- C#, Python, Java, and SQL are among the programming languages being studied.
- Improving my ability to manage projects, solve problems, and cooperate with others.
- Algorithms and Data Structures, Discrete Mathematics, System Design

📜 CERTIFICATES

- HackerRank SQL

- HackerRank ProblemSolving

- Volunteer at Red Crescent

📁 PROJECTS

Mi'raj (Dart, Flutter), Mobile app

Apr 2022 – Jun 2022

- This well designed and user-friendly cross-platform app helps Muslims unite and perform their daily obligatory prayers.
- Contains the Holy Quran, accurate prayer times, and direction to Qiblah.
- Available on Google Play and AppStore.

Career Guidance (Java), Mobile app

Oct 2021 – Dec 2021

- A mobile application created with Java, Android Studio, XML, and SQLite.
- Helps graduates choose a future job, a suitable university, and a specialty that fits their personality.
